

The first **Gold Note Audio Rack** is called **GALILEO** in honour to the Florentine genius born in the mid of 1500, probably the most illuminated physician, mathematician, astronomer and engineer of the 2° Millennium.

The **GALILEO** Rack design combines several different details come from the best Gold Note turntables, the **Bellagio Conquest** and the **Mediterraneo**, offering both a great dampening effect and a beautiful unique Italian design, that reminds the "Monumental Staircase of the Biblioteca (Library) Vasariana" in Florence made by **Michelangelo Buonarroti** as well as the **Michelangelo Monumental Tombs of Lorenzo Dei Medici**.

The soft curved and the rounded design of **Galileo Rack** shelf angles and edges combining a great look with a superb dampening extra efficient effect due to its anti-seismic design of the shelf made of a triple layer massive **Italian Walnut** wood interfaced with stainless steel **3mm** layer keep together by 16 stainless bolts for a total **45mm** thick weighing **25 kilos** module. The Galileo shelf dimension is **700x650mm** allowing handling **100kilos** units each can virtually handle any kind of audio gear deserves the best audio quality performance.

The **Galileo** is offered with solid finely machined aluminium Hourglass Feet with giant interfacing Bronze Inserts. The Hourglass shape Feet feature a great dampening effect due to the elliptical shape better distribute the longitudinal forces along the foot. Besides the foot is 10mm recessed into the wooden shelf and it is coupled each other with a **30x48mm** giant **Bronze** threaded insert allowing the best sound performance.

The **Galileo** is a fully modular design Audio Rack allows building any custom design system starting from a single shelf rack able even to build multiple horizontal tables.

**The Galileo is offered in three options completed shelves including the foot to build the own custom audio rack:**

**The GALILEO MAIN SHELF option features:**

- 1pc 45mm thick SHELF made of two massive Italian walnut wood anti-seismic layer with internal 3mm stainless steel polished reinforcement coupled with 16 stainless bolts [25Kilos each]
- 4pcs Galileo Bottom aluminium Hourglass FOOT with recessed area for spikes 50x140mm
- 4pcs Galileo aluminium adjustable SPIKES for foot 35x40mm with washers
- 4pcs Galileo Bronze threaded coupling SHELF INSERTS 30x48mm
- 4pcs. Galileo Aluminium TOP COVERS 43x70mm

**The GALILEO SHORT FOOT SHELF option features:**

- 1pc 45mm thick SHELF made of two massive Italian walnut wood anti-seismic layer with internal 3mm stainless steel polished reinforcement coupled with 16 stainless bolts [25Kilos each]
- 4pcs Galileo aluminium Hourglass FOOT 50x200mm
- 4pcs Galileo Bronze threaded coupling SHELF INSERTS 30x48mm

**The GALILEO LONG FOOT SHELF option features:**

- 1pc 45mm thick SHELF made of two massive Italian walnut wood anti-seismic layer with internal 3mm stainless steel polished reinforcement coupled with 16 stainless bolts [25Kilos each]
- 4pcs Galileo aluminium Hourglass FOOT 50x300mm
- 4pcs Galileo Bronze threaded coupling SHELF INSERTS 30x48mm

---

**The GALILEO rack DELUXE key features:**

- 1pc 45mm thick SHELF made of two massive Italian walnut wood anti-seismic layer with internal 3mm stainless steel polished reinforcement coupled with 16 stainless bolts
- Full Modular design allows custom assembling from one single shelf to "infinite" shelves with different height options
- Hourglass extra solid machined aluminium adjustable four foot design
- Bronze clamp pillars interfacing the hourglass foot to increase the coupling effect and absorbing energy
- Adjustable integrated invisible spikes

**(Optionally available even in Lacquer black or white simplified model. The Galileo Lacquered option feature a 3mm thick artificial high dampening fibre layer instead the S/Steel of the Deluxe Walnut option weighing total 18 Kilos)**
